Test specimen content

This synthetic updated fire safety record has a later issue date and future expiry date as compared with version 1.

The expected change is validity-date evidence from 2025-12-31 to 2028-10-14. External authenticity remains unverified in both cycles.

Verification notice

This document is fictional data created exclusively to test automated upload, PDF parsing, text extraction, OCR, matching, officer review, and re-scrutiny. No government body, financial institution, regulator, university, architect, engineer, or fire authority issued or approved this document.

Authenticity and official statutory compliance must remain unverified and require appropriate human and external checks.
